

Inmagic Gatherer v3.1 Service Pack 2

Purpose: This service pack resolves inconsistent gathering issues with the Scheduler component have been corrected. Previously, some scheduled gathers were skipped. [SPR 735]

Note the following before you install the service pack:

- You must ensure that the Scheduler component of the *Gatherer* software is not running when you install the service pack.
- You can install this service pack over your *Gatherer* 3.1 installation.
- You must log in with administrator privileges on the server on which the *Gatherer* services reside. If you do not, the Scheduler component will not be properly updated.

To install the *Gatherer* Service Pack:

- 1) If you have not done so already, stop the Inmagic Gatherer Scheduler service using your operating system's Services window.
- 2) Click the GP31-SP2.zip link to download the service pack, then use WinZip to extract the executable file it contains (TNSCHEDULER.EXE).
- 3) Copy TNSCHEDULER.EXE into the BIN subfolder of your *Gatherer* v3.1 installation folder (for example, C:\PROGRAM FILES\INMAGIC\GATHERER\BIN) and overwrite the older, existing file.
- 4) Restart the Inmagic Gatherer Scheduler service from the Services window.

If you have any questions or problems with installing this service pack, contact support@inmagic.com.
