

Inmagic *Genie* Express v3.00 Service Pack 2

This Service Pack addresses the following issues found in *Genie* v3.00. Applying this Service Pack is optional. Review the issues addressed to determine if it is relevant for your system.

1. When adding individual items to the Cart, report pages no longer reset to the top of the page [SPR 3214]
2. *Genie* printing is now compatible with the Internet Explorer Print toolbar button [SPR 5102]
3. OPAC query screens depend less on the internal Name specified in MyQueries.config [SPR 4938, 4939]
4. Web.config: validateRequest="false" has been added [SPR 5088]

This service pack also includes this fix addressed in SP1:

1. *Genie* printing is now compatible with Internet Explorer 7.0. [SPR 4956]

Applying the Service Pack

- 1) If you have not done so already, stop the World Wide Web Publishing service using your operating system's Services window.
- 2) Click the GenieV30SP2.zip link to download and save the *Genie* Express 3.0 service pack to your hard drive.
- 3) Unzip GenieV30SP2.zip to a temporary folder and run Setup.exe.
- 4) When prompted for the installation folder, browse to the folder that contains your *Genie* Express v3.0 software and click "Next".
- 5) On the Customer Information dialog box, verify that the information is correct, then click "Next".
- 6) Click the Finish button and restart World Wide Web Publishing Service from the Services window.
- 7) Check the web.config file in the *Genie* folder. For example, if your site uses https://, you'll need to make that change to the new file.

Question:

How to tell if this service pack has been installed?

Answer:

The "About *Genie*" link will indicate that the *Genie* Express version is 3.00.2.

If you have any questions or problems with this service pack, contact support@inmagic.com.

About the Service Pack

This service pack updates the MeadCo ScriptX ActiveX control to a version compatible with Internet Explorer 7. This control is used by *Genie* to apply precision formatting and positioning to print-friendly reports. The service pack also updates specific *Genie* pages and the *Genie* DLL.
